Proudly Introduces:

"A little certainly does go a long way!"

WHAT IS AVI-CULTURE-2™?

AVI-CULTURE-2™ is a *Live* Probiotic that was specifically developed for **ALL birds!**

AVI-CULTURE-2™ is a *Live* Probiotic that offers aviculturists of **ALL BIRDS** including pigeons, poultry & gamebirds, veterinarians, pet & animal rescue facility managers, zoo curators, and pet bird owners the next generation in Synbiotics with a guaranteed potency of well over 2 Billion Colony-Forming-Units (CFU's) per gram of 8 strains of the finest, living probiotics & 1 prebiotic to fuel them, minus any fillers, additives, odors or artificial flavors! **AVI-CULTURE-2™** is Dairy-free, Gluten-free, Wheat-free, Yeast-free, Corn-free, Soy-free, Sugar-free, Egg-free, Preservative-free and **GMO-FREE!!** It is over **1,000 times more effective** than most **ALL** other probiotic products on the market for **ANY** type of livestock, breeding stock or pet! **AVI-CULTURE-2™** is a probiotic product that is endorsed and used by veterinarians, zoo curators, top bird owners and bird breeders of all types worldwide.

AVI-CULTURE-2™ consists of 8 strains of a special blend of proven, field-tested microorganisms that have been shown to implant on the villi of the intestinal tract in birds consisting of: *Lactobacillus acidophilus*, *Lactobacillus casei*, *Lactobacillus plantarum*, *Lactobacillus rhamnosus*, *Bifidobacterium lactis*, *Bifidobacterium longum*, *Bifidobacterium bifidum*, *Lactobacillus salivarius*, manufactured through a fermentation process and freeze-dried. This combined culture is blended with Fructooligosaccharides (FOS) a prebiotic, Magnesium stearate (Plant-based) as an anti-caking agent & Rice Maltodextrin as a carrier for a guaranteed potency of well over 2 Billion (02x10⁹ CFU/g) at Best-if-used-by date shown on bottle label. Just imagine what the potency is prior to that date!!
